

PREPARE YOUR EMPLOYEES FOR RETIREMENT

AN ONLINE SOLUTION

PREPARING FOR RETIREMENT ONLINE RETIREMENT COURSE

The retirement landscape is changing. We are living longer and healthier lives and there are more pathways into retirement than ever before. Changes to pension provision and the default retirement age will impact employers and employees alike. There is no better time to prepare your employees for the transitions ahead.

The new online resource, Preparing for Retirement E Tutor, provides employers with a unique educational tool for their employees on retirement planning issues.

An affordable and flexible solution

At a time when organisations are having to face tough cost management decisions, the online resource provides an excellent solution for those who wish to support their employees and minimise costs.

The course can be accessed from any PC with internet access. This gives employees the flexibility to work through the course either at home or in the workplace and at their own pace. For larger organisations, the course can also be own branded.

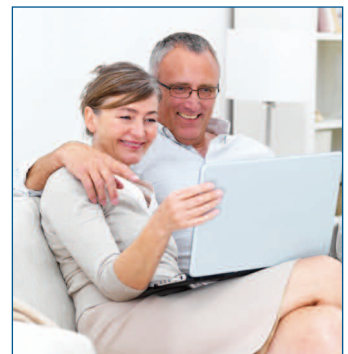

Available 24/7 it is particularly suitable for employers who wish to support their employees in preparing for retirement, but who are not able to provide face-to-face courses. Alternatively the E Tutor can be used as preparation enabling a face-to-face course to be more finely tailored to course participants.

Course contents

The online tool comprises FOUR MODULES:

- **Managing Change**
- **Money**
- **Time**
- **Health & Relationships**

The modules can be visited as often as required and contain case studies, examples and quizzes. Each module is accompanied by a **Downloadable Workbook** for employees to complete and keep as a record of their own **Personal Retirement Plan**.

Benefits for employers

- *Low cost and affordable*
- *Minimal administration*
- *Own branding by arrangement*
- *Employees can work through the course at home or in the workplace*
- *Renewable annual licence or individual employee fee*
- *Complements or replaces face-to-face courses*

Benefits for employees

- *24 hour access from any PC with internet access*
- *Work at your own pace and when you have time available*
- *Visit the modules as often as you wish*
- *Complete your own retirement planner*

About Life Academy

Life Academy is a charity that enables people to learn about managing the changes in their lives through life and retirement planning and financial education. We achieve this through:

- Life and retirement planning courses
- Financial literacy education
- Qualifications in life and retirement planning
- Developing partnerships to reach individuals
- Creating innovative approaches for learning.

We believe financial literacy and life planning go hand in hand. In both finance and health, the importance of adequate preparation for the future is all the greater given our increasing longevity.
